

Teleperformance

Let's come together as a team and show our commitment to diversity and respect for all!

Beyond discrimination on the basis of gender and sexuality, Teleperformance is here to offer work precarity to all:

- Fixed-term contracts
- "Special purpose" (meaning work contract-dependent) residence permits
- Constant productivity checks for your daily dose of terror
- Rolling timetables
- Misinformation about the right to strike
- Forcing compulsory leave when it suits the company
- Internal transfers or non-renewal of contracts based solely on profit and the needs of client companies
- More responsibilities for senior agents without a salary increase and without permanent contracts

And of course real discrimination management is very different from what is advertised:

- Moving a rape victim to another department while the rapist remained in his place
- Deadnaming
- Daily homophobic and transphobic comments to which you are encouraged not to respond as it is seen as aggression

**fight against the bosses,
even if diversity is now
in the company's
vocabulary**

**Teleperformance is
so inclusive, that
even your rapist
gets to keep the job!**

against productivity

for the freedom of laziness

**against every employer's attack,
we stand in solidarity
and rebel collectively**

**waged labour is
terrorism**

**don't make peace
with no boss**
